

Saint Mary's of the Lakes

K-2

Habitats and Responsible Pet Ownership:

Students will look at the world's major habitats and understand why certain animals must have that environment. Responsible pet ownership is very closely connected to an animal's habitat—students will explore this connection.

First Aid

How should you respond in an Emergency?
Students will learn the ABCs of emergency care for pets.

Microscope Lab:

Microscopes are invaluable tools to a veterinarian. Students will learn about what microscopes are and what they do to assist veterinarians practice medicine. Students will be exploring many specimens during this lab.

Philanthropy Lesson:

Giving is good for you. The veterinarian world is filled with opportunities to give back and help animals. When we help others it activates the areas of the brain associated with pleasure, social connection and trust. Join us as we do a special project to give back to the animals.

Photography 101:

It's photo time. Learn the ins and outs of how to photograph pets through the eyes of a photographer. Learning how to properly compose your pictures is the name of the game to make interesting and fun photos!

LIVE ANIMAL INTERACTION IN EVERY CLASS!
