Prayer for Expectant Parents

Lord Jesus, cover your pregnant daughters with your amazing love; Inspire your sons as expectant fathers to be a Godly example; Protect their expected sons and daughters in the womb from all harm, including judgment from others & the violence of abortion; Guide your sons and daughters struggling with issues of a new pregnancy to caring counselors & doctors and loving friends & mentors; Provide the prenatal care, safe delivery, affordable housing, and financial resources needed; Fill your sons & daughters with joy in choosing the gift of life for their child; Bless your sons & daughters with a deeper relationship with you and a desire for your will instead of their own. Mary, Mother of Jesus, pray for all men, women, and families and for an increase in the culture of life and the acceptance of life in our families from the moment of conception until God wills a natural death. Amen.
