

Dear Alumni,

As St. Ann School begins another successful year and students, teachers and parents reflect on their accomplishments, we are reaching out to our alumni to encourage a reflection on their own Catholic elementary education experience.

Generations of families have attended Catholic elementary schools, with each new generation enjoying the same benefits - a value-based, quality education that includes strong preparation for a well-lived life. In addition, as compared with the public schools, our Catholic schools consistently offer higher test scores. And, by supporting St. Ann School, you can help ensure that future generations will also reap these benefits.

One alumnus recently wrote:

"My life, and my children's lives have been enriched by Catholic education. I hope someday to see my grandchildren flourishing in Catholic schools."

I would like to invite **you** to share a personal or family Catholic elementary education story with our community. Your participation will enrich our community and send a message about the importance that the Catholic elementary school education has played in your life. I welcome your story either at our [facebook](#) page or at www.ClickYes.com, where it will be shared with others who, like you, wish to further strengthen Catholic elementary education. Your story will help tell the amazing impact St. Ann School has had on thousands of lives and generations of families.

I would also like to ask you to consider a gift to St. Ann School. If you have already made a gift, I appreciate your support. Your memories are what make our past great and our future full of promise. Like you, tens of thousands of current Catholic elementary school students hold the hope for a better life and an enriched future. Your support will help secure the future of Catholic elementary education. I look forward to hearing your questions, comments and feedback, and I thank you for your support.

In Christ's Love,

A handwritten signature in cursive script that reads "Mr. Michael Vicario". The signature is written in a dark ink on a light-colored background.
