A Blended Learning School

Knowledge

PRE-K FOR ALL

St. Angela Merici School provides free full-day, high-quality pre-K program funded by the Department of Education. Our teachers are sparking wonder and igniting learning in our children. Pre-K For All gives children stronger math and reading skills in elementary school and a better chance at success in life. Studies show that early childhood education improves performance throughout a child's school experience. In these high-quality programs, children develop and learn how to interact with others, share, wait their turns, and listen. Pre-K For All runs five days per week from September to June.

Faith

What is Blended Learning?

A formal education program in which a student learns – at least in part – through online delivery of instruction and content, with some element of student control over time, place, path and/or pace.

- Clayton Christensen Institute

Our school has embarked on an initiative in individualizing students' education through strategic use of technology. St. Angela Merici school is one of many through out our country who has taken on this initiative, the impact on their academic achievement and parent support has been extremely positive.

This model and the belief that technology only enhances the wonderful things we are already doing, I am sure you are wondering, how will this affect a child's education? In a nutshell, daily technology engagement will be used to further individualize and differentiate each child's education, whether to enrich or remediate core academic subjects. In today's digital age, we have reached a point where adaptive

Hope

About us

St. Angela Merici School has provided quality education to the Bronx Community beginning in 1904 with the Ursuline Sisters as teachers.

Since its founding, St. Angela Merici School has served a changing immigrant population in years past from Ireland, and now Africa, the Caribbean and Central America.

Our school strives to provide our students with a learning environment and experiences that develop their academic skills and Catholic faith.

Our patron Saint Angela Merici left behind an extraordinary legacy in her life's work and the millions of women who have served God as an Ursuline Sister, and the many Secular Franciscans not to mention all the children who have benefited by the excellent education they have received and those yet to come. How do we keep the legacy alive? We keep her legacy alive by reminding all the children who enter through our school doors That St. Angela planted the seeds of **knowledge, respect** and in it's center **faith**, surrounded by **hope and love** all of which calls us to service. That seed of life became a well rooted tree in which we embody today. The Five Pillars displayed through our building is a reminder on how we are to continue the great legacy of a great saint who truly lived the Gospel!

Love
