My Dear Friends,

You can pray wherever you find yourself. At any particular time or place – speeding along the parkway on the way to work, online to be checked out at the supermarket with four people ahead of you. All these are as good a place and time as any to pray. To be sure, the best place of all is before God's presence in the tabernacle here in church. But on a hectic, busy day any time or place is suitable for talking to God – that is what prayer is after all - talking to God.
