My Dear Friends,

Countless days have dawned and died – twenty centuries have come and gone. And through it all one central figure stands out and divides history in two - B.C. and A.D. - Jesus of Nazareth. All the kings that have reigned, all the armies that have marched, all the navies that have sailed have not affected life on earth as that one solitary life, the life of Christ.

And yet, as ironical as it seems that life of Christ is unacknowledged by millions of people on this planet. Thanks be to God that is not the case with us. Very early on in our childhood our parents revealed to us the powerful, beautiful fact that Jesus Christ is God – the creator of all that is.
