Many Thanks
I would like to thank the parishioners of St. Mary Parish for being so supportive of me throughout my time in seminary. It was a blessing to be able to celebrate my first Mass as a newly ordained priest at my home parish with so many of you present. I would like to extend special thanks to Father Tim Whalen for allowing me that opportunity, to the Knights of Columbus for the honor guard, to Deacon Francis for his help, to Emily Lunz Lohr and the adult and children’s choirs under the direction of Mr. Kardasz and Mrs. Flaminio for raising their talented voices in praise of our Lord, to Mrs. Mary Ann Coholich for preparation of the altar, to Mrs. Susan Urso and Mrs. Laurie Exler in the parish office, and to anyone who had a hand in helping to make that Mass so beautiful. I appreciate the wonderful work of the Christian Mothers who put their baking skills to use to allow so many to enjoy the reception after the Mass. Please know that I will always keep St. Mary Parish in my prayers.

May God bless you,
Father D.J. Egan

Abortion is not Health Care
Rep. Andy Biggs, OR-AZ, introduced a bill which would prevent the IRS from accepting abortion costs toward tax-deductible medical expenses. “It’s time for us to be honest with ourselves – health care is primarily a restorative function, one that helps our bodies heal from a disease or ailment. Under no circumstances should health care include the intentional taking of a life,” said Biggs.

Will you take time to sit to just be with Jesus each day this week? Enjoy the “better part.”

### A Mindset of Service

There’s a lot of traveling, delivering, and visiting going on in our readings today. In Genesis Abraham cares for the needs of three mysterious travelers. The psalm responds, celebrating the kind of righteousness that Abraham practices. Then, in his letter to the Colossians, Saint Paul describes his own ministry as almost like a delivery service: he, God’s steward, brings the word of God to their community. Finally, Luke’s Gospel shares the well-known story of Mary and Martha, and the different ways they welcome Jesus into their home. Amid all this coming and going, we are invited to pay attention to the ways we tend to the needs of others. Each of us can ask, How am I present to God and others in my life?

Ohio Legislature Passes Bill to Ban All Abortions After an Unborn Baby’s Heartbeat Begins

The full Ohio legislature passed a bill April 10th to protect unborn babies once their heartbeats are detectable, moving it to the governor’s office for final approval.

House lawmakers voted 56-39 to approve the pro-life bill, amid interruptions by pro-abortion protesters. Statehouse News reports abortion activists could be heard throughout the session shouting and chanting.

Quickly afterward, the state Senate approved the final version of the bill in a 18-13 vote, the Dayton Daily News reports. The Senate passed the bill in March; however, the bill had to return to the Senate because the House amended it to include stiffer penalties for abortionists who violate the measure. Gov. Mike DeWine supports the legislation. He is expected to sign it soon.

State Senate Bill 23 would prohibit abortions after an unborn baby’s heartbeat is detectable, about six weeks of pregnancy, in Ohio. Because many women do not even know they are pregnant at this early stage, the legislation could protect almost all unborn babies in Ohio if it goes into effect.

Georgia Gov Brian Kemp Signs Bill Banning Abortions When Baby’s Heartbeat Begins

Georgia Gov. Brian Kemp signed a law Tuesday May 7th to ban abortions after an unborn baby’s heartbeat is detectable.

Kemp, a pro-life Republican, signed the pro-life measure despite a threat by actress Alyssa Milano and other Hollywood elites to boycott the state if he does.

“The Living Infants Fairness and Equality Act … recognizes something that many have know for years. It recognizes that science tells us that children in the womb are living, distinct human beings that are worthy of full legal protection,” Kemp said during the signing ceremony.

‘No Backdoors, No End-Runs’: Pompeo Vows Total End to Foreign Aid for Abortion

US Secretary of State Mike Pompeo announced last month that the Trump administration would implement the Global Protect Life Policy, also known as the Mexico City Policy, “to the broadest extent possible.” The policy bars taxpayer funds from going to nongovernmental organizations abroad that perform abortions.

“We will enforce a strict prohibition on backdoor funding schemes and end-runs around our policy,” Pompeo said. “American taxpayer dollars will not be used to underwrite abortions.” The secretary of state made the promise during an interview with EWTN Pro-Life Weekly, broadcast April 4.

It is Young People Who are Leading the Fight against Pornography

Two Catholic University undergraduate seniors sponsored a very modest bill which simply asked that porn no longer be accessible on the University Wifi Network. Hundreds of students supported the restriction. They cheered at the passing of the bill. The student body president defended the bill on more

Texas Passes Bill to Overturn Rule Allowing Hospitals to Euthanize Patients After 10-Day Notification

A Texas legislative committee has passed pro-life legislation that would overturn the rule the state currently has that essentially allows hospitals to euthanize patients after a 10-day notification.

In Texas, patient autonomy is essentially a one-way street. Here, if a doctor disagrees with the patient’s decision to maintain life—and the patient or family refuses to permit the life-extending treatment to be withdrawn—the doctor can take the controversy to the hospital bioethics committee for a quasi-judicial hearing and binding ultimate ruling.

If the committee agrees with the doctor, the patient or family has only 10-days within which to find an alternative source of treatment and arrange a transfer. If they can’t, the life-extending treatment can be terminated over the patient or surrogate’s objection—meaning the patient will be forced into a death at a time when life could have been maintained.

To fully comprehend the unjust nature of Texas law in this regard, realize these “futile care” or “inappropriate care” decisions do not terminate treatment because it won’t work, but because it does. It is keeping the patient alive when the doctor/bioethics committee thinks the patient should die.
