

Kindergarten – Third Grade

All of our St. John's students that are currently in kindergarten through third grade have been involved in service learning projects by partnering

with the UPMC Senior Living

Community, specifically,

Lighthouse Pointe. This

collaboration started in

October when the

children went to visit the

residents and enjoyed

their Trick-or-Treat

event. Because of the great

success of this outing and

the relationships formed, their

visits continued throughout the year. The students

went again to Lighthouse Pointe to celebrate both

Veterans Day and Christmas. These trips were filled with joy, laughter, and great conversation. In addition, the residents even came to see our children at St. John's school. They brought a wonderful Valentine's banner for the students and received a tour of the classrooms.

Please check out the following link to see UPMC's coverage of this event:

As we look forward to the rest of the year, the senior citizens also plan to come to the school to watch our liturgical performance, "His Last Days," in March. These visits are sure to create long-lasting memories for both generations.
