We hope you will join us for this informative meeting whether you have registered your child/ren at Mother Seton Academy or if you are still discerning the best choice of education for your child/ren.

Since the announcement was made about Mother Seton Academy, there have been many questions as to what the difference is between a "School" and an "Academy". In essence it is all about a high-order learning process. In the education field today we hear much about preparing students for 21<sup>st</sup> century learning and the skills they will need. As we begin this merge our aim is to be a 21st century school which strives to ignite a passion for lifelong learning.

In his message to the NCEA in America, back in April, 1979, Pope John Paul II said, "The mission of the Catholic school is the integral formation of students, so that they may be true to their condition as Christ's disciples and as such work effectively for the evangelization of culture and for the common good of society."

Mother Seton Academy is ready for the challenge!!!

Sincerely,

*Sister Cherree Ann Power, CR*
