

Setting up Payment Information (PrestoPay)

Once you have established your account, click on the dashboard link. Then go to family functions, Payment Types. Follow the instructions to instantly link to your banking account using your online banking credentials. If you don't see your bank or don't use online banking, you can manually enter account info and follow instructions in the paragraph below to verify your account info

To manually enter your banking information:

You will receive two small test deposits into your banking account from GLSC within two business days. You will need to look at your bank account to view these deposits. Once you see them, log into your account at www.shopwithscrip.com. Then click on Dashboard, Family Functions, PrestoPay, and verify the deposit amounts to ensure accurate account information was received.

Please do not place any orders until you link your account to your bank...doing so will cause the system to create an order to be paid by check and Nativity is currently only doing ACH payments! Any orders placed before the ACH process is completed and verified will be deleted.

NOTES ABOUT PRESTO PAY:

1. There is a \$0.15 fee for each transaction you make...so order Scrip in batches to avoid excess fees!
2. If your account has insufficient funds to process your order, you will be expected to refund Nativity the \$30 fee charged to them by the GLSC.
