

LEGO Machines and Bots

Thursdays @ CTR STREAM Lab

Jan 17 - May 16, 2019: 3:30pm - 4:30pm

Build and work with crazy contraptions that really work your brain. Students will use **LEGO robotics** parts like pulleys, axels, gears and motors to create fun and interactive models. Compete with friends with a rousing game of **Battle Tops** or **Foosball**.

Put your hand eye coordination to the test with the ping pong popper model. All this and more are waiting to be discovered as students learn to build and play with **Cranium Contraptions**.

Every week students will work on a new project with our proprietary LEGO robotics kits and paperless curriculum.

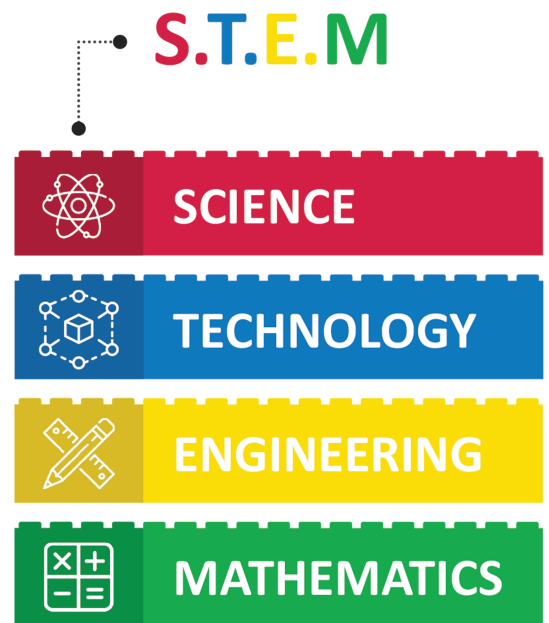

All kids K through 5th grade are welcome

Rates

Winter and Spring 2019 - \$280
Additonal Registration Fee -\$11
