****GUIDELINES****

****ACCEPTS APPLICATIONS YEAR ROUND****

MEASURES ARE FREE TO INDIVIDUALS (HOMEOWNERS OR RENTERS), WHO QUALIFY UNDER THE ESTABLISHED GUIDELINES.

All eligible applicants will receive a home energy audit by a trained State certified member of the Weatherization team.

The energy audit of the home will assess furnace efficiency, insulation levels, water heater operation, and duct conditions. Window and doors are checked for air infiltration. The air quality of the home is checked along with other health and safety related factors such as carbon monoxide levels. In certain cases a furnace may be replaced or unsafe electrical conditions repaired.
