

# L.E.A.P. December News

Welcome to the  
L.E.A.P. Program!  
We provide active  
learning  
opportunities  
through play to  
enhance the  
preschool day!!

In November, we explored weighing and measuring everything in our room including ourselves! We participated in several activities highlighting heavy/light. This month, we are learning about light/dark and will introduce a light board in the science center. We will also add a "writing" area to the book center so the students can practice their writing skills. I'm sure letters to Santa will appear. We have also added a listening area to the book center – ask your child what centers they are EXPLORING!!

Merry  
Christmas
