

L.E.A.P. February News

Welcome to the L.E.A.P. Program! We provide active learning opportunities through play to enhance the preschool day!!

Last month we explored motion, with our main focus on rolling, flying and bouncing. February will be the month of imagination! We will become creative in telling tales and writing stories. We will create our own books, pretend play, and bring out the puppet theater! Our writing center will be available for special notes for those we love 😊.

Reminders

It's still winter – please dress for the weather!!
